

BALLOON RIDES IN COLORADO SPRINGS

Thanks for your interest in flying with High But Dry Balloons. Balloon rides are \$200.00 per person for a 1hr+ ride. We will be flying around beautiful Colorado Springs for one hour. After one hour, we will start looking for a place to land. After we land, you'll have a champagne ceremony and then the crew packs us up and brings us back to where we left off from. So, the whole excursion takes about two and a half hours.

I'm an in town flyer. I have my own launch field in the middle of town at Austin Bluffs and Academy. That way you get a beautiful panoramic view of the whole mountain range plus you are right on top of Palmer Park. Academy Blvd is your main north south and Austin Bluffs is the same as the Garden of the Gods.

I'm the owner and pilot and I'm totally addicted to it so I try to give me a great ride also... I fly from the best spot in Colorado Springs. We fly seven days a week at dawn. My launch field is located one block east of Academy on Austin Bluffs, directly behind Auto Zone auto parts building, just zigzag through the parking lot and you are there. My balloons can take from one to eight passengers. I have three sizes of balloons depending on the number of passengers. I make deals on kids so just call and ask.

Thanks

Gary "*Burner*" Born
